DBIA Helps You Make Vital Industry & Owner Connections

With market analysis anticipating design-build to account for nearly half of all construction spending by 2026, we can see an exciting future for both Owners and design-build teams across the nation. Owners are looking for qualified design-build teams to deliver the nation's most innovative, cost and time-efficient projects possible, and DBIA is committed to help our industry prepare for the future. Our March sector-specific conferences couldn't come at a better time to help teams connect with the experts they'll need.

The 2025 Design-Build for Transportation/Aviation and Water/Wastewater Conferences provide unparalleled access to decision-makers, team members, and hundreds of public and private Owners. Our conference attendees know they can meet prospective team members with a broad range of expertise among our exhibitors and sponsors. That's one of the many reasons thousands come to DBIA conferences.

Your Time Is Valuable — We'll Make the Most of It

Build Your Team: Network with all members of the project team, including general contractors, designers, engineers, MEPs, attorneys and finance professionals.

Meet Industry: Our attendees represent all members of a design-build team. Meet with those who have the power to make instant decisions.

Meet Owners: Owners, including key officials from local, state and federal agencies, attend DBIA events and build relationships here that last.

Earn CEHs: All packages include free full conference passes so that team members can attend the educational sessions and earn credit hours.

Thank You to Our Event Co-Hosts
